Course Description

The main objectives of this course are

1. To help students identify their flaws in English pronunciation and have an individual plan to rectify them.
2. To help students understand the influences on correct English pronunciation.
3. To help students adapt their speech organs to get near-perfect native English pronunciation.
4. To provide all the necessary knowledge and skills to the students to remember to make a life-long goal to have good English pronunciation.
5. To transcend their knowledge of grammatical & compositional aptitude which would meet the needs of the dynamic career and professional demands.
